

IMPORTANT SAFETY INFORMATION

Read and understand all safety precautions and instructions before use.
 The Brush Grubber is designed for outdoor use.
 Check Brush grubber before each and every use for signs of wear.
 The Brush Grubber is designed to remove brush up to 3" diameter.
 The Brush Grubber is not to be used on people or pets.

Figure 1

INSTRUCTIONS

1. Place Brush Grubber on each side of trunk of brush near the base/ground with spring on Brush Grubber placed towards the ground as shown in figure 1. It is recommended to cut brush off approximately 2-4 feet above the ground prior to removal of stump.

2. Securely Attach a chain to the clevis of Brush Grubber and the opposite end of chain towing/pulling vehicle. Take caution that the chain is long enough so the brush will not hit/strike the operator of the towing/pulling vehicle.

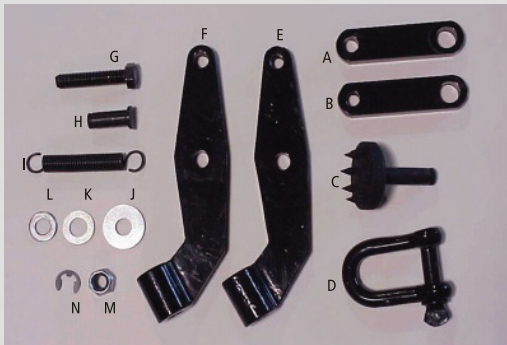

Do Not jerk the Brush Grubber while there is slack in the chain.

3. To remove Brush Grubber from the trunk of brush push back on the clevis (towards the trunk). Take caution of all pinch points on the Brush Grubber.

*** Take caution of all pinch points on the Brush Grubber.**

*** Take caution of grip pads when opening the jaws of the Brush Grubber. Keep fingers and hands free and clear.**
