

Important Safety Information

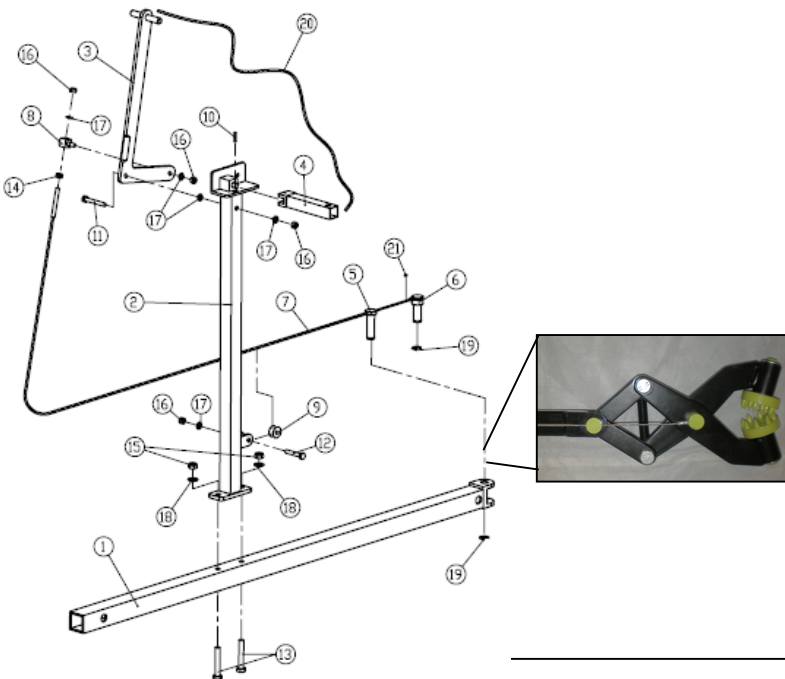

Read and understand all safety precautions and instructions before use.

- The Original Brush Grubber Hitch Attachment is designed for outdoor use.
- Check Original Brush Grubber Hitch Attachment before each and every use for signs of wear. Do Not use if damaged or if not working properly
- The Original Brush Grubber Hitch Attachment is designed to use with ATV & UTV receiver hitches. Easily adapts to your existing Original Brush Grubber (Model BG-01) for fast one person operation
- The Original Brush Grubber Hitch Attachment is not to be used on people or pets.

Instructions

1. Pull rope to open the jaws on the BG-01HA Hitch Attachment. Detent will hold the jaws open until released.
2. Back up/pull forward until the brush/stump is in-between the grip pads of the BG-01 Original Brush Grubber
3. Pull the rope to release the detent allowing the jaws to close on the brush/stump.
4. Pull forward/back up to pull the brush/stump, including the root system, out of the ground.
5. Pull the rope again to release the brush/stump from the jaws of the Original Brush Grubber.
