\*BG-23 Bucket Mount shown sold separately

## Instructions

1. Attach the Bucket Grubber HD to the Bucket Mount model BG-23 (**sold separately**) using the 2 hex bolts provided with the Bucket Mount.
2. Be sure that Bucket Grubber HD System is secured to the bucket using the securing bolt on the Bucket Mount.
3. **Always cut tree off at 3ft to 4ft above the ground before using the Bucket Grubber HD.**
4. Drive up to the tree to be removed and position it so that the tree is between the two grip bars on the Bucket Grubber HD.
5. Tilt bucket slightly to engage the no slip grip teeth and drive forward pushing the tree and root system out of the ground.
6. Once the tree is removed tilt bucket back to disengage the teeth.  
**\*Take caution of all pinch points on the Bucket Grubber HD.**  
**\*Take caution of Grip Bars when attaching the Bucket Grubber HD. Keep fingers and hands free and clear.**
